

## Declaration of consent (portrait)

A depiction of the person being presented is important in the context of interviews, portraits or editorial reports. For this reason, I explicitly agree that the entire images, my e-mail address, sound and video material produced of me may be published by the Thieme Group as well as other publishers (e.g. for the purpose of an interview, portrait, report, description of persons or authors).

My consent includes in particular the right to reproduce and distribute in printed form (e.g. journal contribution, contribution in books, other scientific and popular scientific publications, brochures, etc.), in digital media (e.g. educational film, CD-ROM, DVD, electronic paper, databases, internet websites, social media, e.g. Xing, Facebook, LinkedIn, Instagram, Youtube, cloud-based service, e-book, pdf, ePub, app), as well as in the context of cover design or advertising for such publications.

I can revoke my consent at any time, and without giving reasons, in writing to the address given below (Georg Thieme Verlag KG) or via e-mail to [datenschutz@thieme.de](mailto:datenschutz@thieme.de). The footage would then no longer be used for reprints or new printed materials or would be used in a modified form in which I am no longer recognizable (for example by image editing with a graphic filter). This also applies to new editions of digital media and new works in digital form. In addition, the images are also removed from the current online platforms or likewise modified so that I am no longer recognizable.

.....  
**Name** of the person depicted (please write clearly)

.....  
Place

.....  
Date

.....  
**Signature** of the displayed  
person (persons over 14 years)

.....  
For persons **under 18 years of age** or persons supervised,  
signature of the legal representative / **both** parents /  
supervisor

### Description of images, sound and video material

.....  
Name, place of sender / author

.....  
Journal / book
